

Q3/2025 Automotive Raw Materials Research

Performance & Efficiency Summary

KPI Highlights:

- Total Materials Analyzed: 24
 - Lightweight Materials: 3
 - High Strength Materials: 3
 - Conductive Materials: 5
 - Heat Resistant Materials: 4
 - Cross-Category Relevance: 6
- | Material | Category | Lightweight | Strength | Conductivity | Heat Resistance | Price (USD) |
|----------|----------|-------------|----------|--------------|-----------------|-------------|
|----------|----------|-------------|----------|--------------|-----------------|-------------|

Steel	Metals		·			0.8
Aluminum	Metals		·			2.5
Magnesium	Metals		·			3.0
Copper	Metals			·		8.0
ABS	Plastics & Polymers		·			1.6
Ceramics	Glass & Ceramics			·	·	5.0
Carbon Fiber	Textiles & Composites	·		·		20.0
Silicon	Rare Earths & Minerals			·		10.0
Graphite	Rare Earths & Minerals			·		1.2
Engine Oil	Chemicals & Fluids				·	4.0
Transmission Fluid	Chemicals & Fluids				·	3.5
Coolant (Ethylene Glycol)	Chemicals & Fluids				·	2.0
Refrigerant (R134a, R1234yf)	Chemicals & Fluids			·		6.0
